These are casement windows,Slidingwindows, Combination window,Bay windows, Tilt&Turn, French Doors&windows,Balcony Doors, Lift&Slide Doors,Tilt&Slide window&doors, and Sliding Folding Doors etc.

UPVC WINDOWS FEATURES

LONG-LASTING STRENGTH

Most uPVC tends to change its color and property due to sustained exposure to UV radiation. The engineered blend used in GURUUPVC is UV stabilized that gives it a long life.

HEALTHIER INDOOR AIR QUALITY

The usage of high quality woolpile along with dual layer sealing system in GURUPVC windows prevents dust and pollution from entering your home. This ensures the air inside your home is cleaner and healthier.

LEAD-FREE

GURUUPVC windows are lead-free in line with the global trend to eliminate the use of lead in the construction industry. So, you can be sure about the health of your family.

ENERGY-EFFICIENT

The multi-chambered design of GURUUPVC profiles prevents the transfer of heat inside your house. This makes your house energy efficient by reducing your air-conditioning cost significantly.

SAFE & SECURE

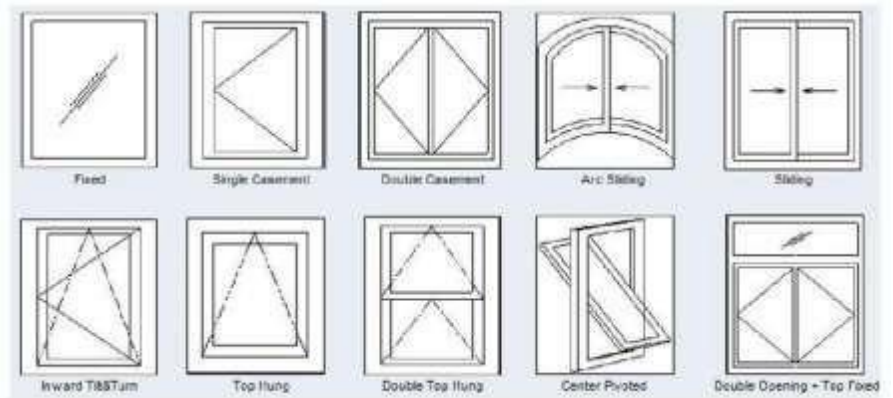

Every GURUUPVC window is reinforced by a concealed GI section which is designed based on the wind pressure of that region, providing additional strength and stability. Making your home safe and secure.

WEATHER PROOF

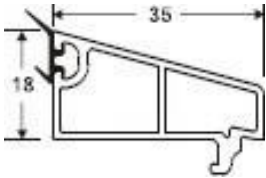

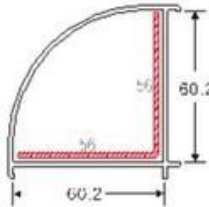

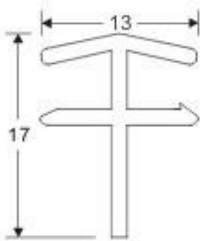

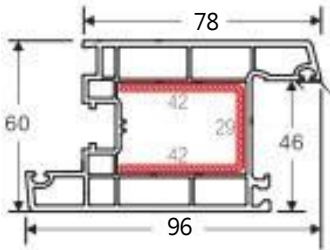

Every GURUUPVC window is reinforced by a concealed GI section which is designed based on the wind pressure of that region, providing additional strength and stability. Making your home safe and secure.
